

## *The Pillars Program*

*A Partnership of Fellowship between Our Fraternal Family and Your Masonic Community*

# Lodge Application/Agreement

The Mission of the Indiana Masonic Home's Pillars Program at Compass Park is to allow organizations within our Masonic family to be connected with a current IMH at Compass Park resident for the purpose of fellowship and friendship. We thank you for your interest in this program.

### **Guidelines for Participation**

#### **As a Pillars Lodge or Chapter, we ask that you will:**

- Assign one member to contact the sponsored resident on a routine basis.
- Send your Pillar resident personalized written correspondence: letter and cards are best!
- Sending care packages of inexpensive items.
- Remember your Pillar resident's birthday and holidays with cards or inexpensive gifts
- Visiting the sponsored resident at the Indiana Masonic Home at Compass Park, taking them to lunch or dinner.
- Mailing your Pillar resident your newsletters or other similar communications.
- Contact the lodge or chapter the resident is a member of, and letting them know of your involvement.
- Attend the funeral of you Pillar resident when they pass and participate in any memorial ceremonies.
- Bring any issues or concerns regarding your Pillar resident directly to the immediate attention of the Chaplain. The best way to do this is through a phone call to the Indiana Masonic Home at Compass Park.
- Work within the guidelines of HIPAA laws and recognize that we must also.
- Relate closely and fraternally to the families of residents, especially those of dementia patients.

#### **As a Pillars Lodge or Chapter, we ask that you do not:**

- Give your Pillars residents money or expensive gifts.
- Ask your Pillars resident what they want or need. Your friendship is the best gift you can give!
- Get involved in conflicts your resident may be having with other residents or IMH Staff at Compass Park.

- Make requests for specific residents, residents from specific counties or areas, specific genders, or other preferences.
